Pressure Switches

Change of Scale

Scale expanded by + 2° due to changed manufacturing process.

Function: No change of technical function/behaviour.

Please inform your customers!

Product Range	Change/Description	Order-No.	Start of Production
KS 3000 A2-7 LGW 30 A2-7 GW 500 A4 LGW/GW 150 A2/A4	Due to the optimization of the production process, the top section had to be revised. The scale was therefore expanded by + 2°.	Please refer to the attached overview "Scale_Colour.xlsx"	CW 35/36 2019

Pressure Switches

Change of Colour (setting wheel)

Change of colour/setting wheel: As already communicated and started with the RepNews 07/2015 this will now be valid for the following pressure switches as well.

Function: No change of technical function/behaviour.

Please inform your customers!

Product Range	Change/Description	Order-No.	Start of Production
GGW A4 GW A4 HP	<p>Until now the setting knobs were marked by pad printing. The pad printing will be replaced by laser marking.</p> <p>New: Material color "grey" New: Printing color "black" Advantage: improved contrast and legibility.</p> <p>Fake-Protection: Up to now, we know no fakes with lasered scales. This might be a good feature to identify DUNGS originals.</p>	Please refer to the attached overview "Scale_Colour.xlsx"	CW 35/36 2019

Pressure Switches

Additional Data Matrix Code

To improve internal manufacturing processes, all pressure switches of square design are given an additional data matrix code. The code is only relevant for production and does not contain any product information.

Please inform your customers!

Product Range	Change/Description	Start of Production
<p>all pressure switches with square design ... A4</p>	<p>Additional data matrix code, only for manufacturing reasons.</p> <div style="text-align: center;">   </div> <p>On all ... A4 top sections.</p>	<p>CW 31 2019</p>

Elimination Electrodes

The electrodes are eliminated due to low quantities.
Since these products are 3rd party products, they can still be purchased directly from the manufacturer (SAPCO): <http://www.sapco.fr/index.php/en/25-2/> directly.

Please note: high minimum order quantities at SAPCO!

Please inform your customers.

Elimination Timetable	Deadline		
Announcement Elimination RepNews 01-2019	from 2019-07-29		
Last order	Please note: NO last order!		
Designation	Order No.	Replacement	Order No.
Ignition/Ionisation electrode	209497	none	none
Ionisation electrode	065474		
Ignition electrode AZ 3	054965		
Ignition electrode AZ 6	130781

Elimination Product DMA 30 Q ...

A variant of our two Q actuators was eliminated by our supplier, so they will no longer deliver it. Unfortunately we were not informed in time, so there is no last order possibility.

Please inform your customers.
